Subject: **Requesting to the Change Room because of Depression**

Respected Madam,

I am writing to bring to your attention some serious concerns that have been affecting my well-being and academic performance in my current hostel room.

I have been staying in room no. 45 of Ganga for last two semester. While I initially hoped to have a conducive environment for both study and relaxation, my experience has been quite the opposite. I share the space with a group of five individuals and unfortunately 3 of them are not my roommate. My roommates are:

Shanila TK and Binekha Babu

Other girls who are ruining my mental peace are:

ShreeNanda ,Tangu(they call her with this name), one girl from Narmada Hostel

They all belong from **Environmental Science department.**

On regular basis, they have engaged in disruptive behavior, such as making loud noises and playing music until as late as 3 a.m., making it extremely difficult for me to concentrate on my studies or get adequate sleep. Additionally, they often mock and tease me, creating an environment where I feel uncomfortable and unwelcome. I have tried discussing my concerns with them, hoping for understanding and compromise but situation got even more worse and now they have started doing all these things intensionally.

The continuous disturbances have started affecting my mental well-being. I am now getting the treatment of headache and academic performance. I believe it's essential to live in a place where one feels safe, respected, and is able to focus on their studies. Hence, I kindly request your intervention in this matter.

Considering the circumstances, I would like to humbly request to change my room. I am hopeful that moving to a more peaceful and conducive environment will aid in my academic pursuits and overall well-being.

I sincerely hope that you'll consider my situation with empathy and urgency. If necessary, I am open to any alternative solutions you might suggest that could help alleviate the issues I am facing.

Thank you

Yours sincerely,

Anjana Kumari
